

Ms Lilley's Class
Autumn Term 1- 2015

To celebrate European Language Day children took part in activities to learn about France. The children learnt French words, created their own French flag and tasted foods including assorted breads and cheese.

During a maths lesson Joshua used loose materials to create and describe a repeating pattern.

Following on from our daily Jolly Phonics work Lilly is beginning to demonstrate the skill of segmenting (to spell words) at our Design Brief easel in the construction area.

Year 1 children have been completing their unit of work involving geographical skills and fieldwork. They went on a walk around Easington Village and used their observational skills to explore and identify local features.
