Year 3/4/5 – Mr. Churchill

Wednesday 29th April 2020

English

Please use the words from yesterday's task that were spelled incorrectly-can you graffiti them onto a piece of paper to help you remember how to spell them?! Create a poster like the one below using these words!

Maths

How old is Grandad?

Sally asked her Grandad how old he was.
This was his answer:

"I have 6 children, and there are 4 years between each child. I had my first child when I was 21. Now the youngest one is 21 himself. Can you work out my age?"

How old is Sally's Grandad?

Formal methods

Use your times table knowledge and the formal method to calculate:

24 x 3 = ____

63 x 4 = ____

652 x 6 = ____

432 x 5 = ____

132 x 8 = ____

486 x 9 = ____

Music

Please listen to a piece of music (this can be any genre you like-pop, classical etc). Have a dance-throw some shapes! After you have done that, think about the emotions that the music made you feel-were you happy, sad, excited etc. Listen to other pieces of music-how is each one similar/different.

One of my favourite pieces of music is the Jurassic Park theme tune-maybe give it a try without seeing dinosaurs running around!
