Sketch a Portrait

Have someone in your family sit for you while you draw his or her portrait. Can you do your whole family? Then, why not find a mirror and do a self-portrait? Maybe you could even catch your pet in a still moment (sleeping, perhaps) and sketch them too.

Remember everything we talked about – all of the different sketching and shading techniques, using your pencil lightly to begin, etc. Don't colour your drawings, leave them as pencil sketches – but do sign and date them 😊
