Maths

1 8 cans of cola cost £4.80

2 cans of cola and 3 cakes cost £3.60

How much does one cake cost?

2 Sally and Leon each have some money.

Sally has £80

- Sally spends $\frac{3}{4}$ of her money
- Leon spends $\frac{2}{7}$ of his money

They now have the same amount of money left.

How much money did Leon have at the start?

Challenge – Can you write your own maths problem based on question 1?

English

Read the text message then, re-write it into more formal Standard English?

Standard English is a clear style of English that can be understood by a wide audience; it can be spoken in any regional accent.

Challenge – Make a list of examples of writing where a formal tone is more appropriate.

Try to think outside of the box.

History

If we were at school, we would be off on Friday to mark the 75th anniversary of VE Day; so this week I am linking all of your 'other' activities to this as it is important that we remember something so significant in our history.

~ VE Day ~

8th May 1945

Discuss the questions and perhaps carry out some further research about VE Day then present your information.

You might choose to do it as an interview, a poster, a factsheet, bullet points or just a couple of paragraphs.

What do the adults in your family know about VE day?

What do you know about VE day?

Challenge – Why do you think it is important to remember VE Day?
