

Year 2: 21.10.2020

Good morning everyone! I hope this finds you well!

Emotional Well-Being:

Good morning boys and girls, we have lots of feelings built up inside of us and we aren't sure what some of them are called. When I feel like this, I like to think of myself as a bottle of fizzy pop that has been shaken up and I always feel better when I do this activity! Go for a walk somewhere with your parents/carers where you won't disturb anyone and.....shout WOOHOO as loud as you can! Feel all the tension from your body drain away and laugh at how silly it seems. Now you should have a clear head to think about which emotions are bothering you and you can talk to your parents/carers about why.

English:

Today we are going to continue writing our non-chronological report on beavers. Make sure to use your plan from Monday. Include all of the grammar we have talked about such as: sentence types, expanded noun phrases with commas between adjectives, apostrophe for possession, coordinating conjunctions. I want you to complete what beavers eat and are they at risk of extinction. This should take you between three quarters and half of a page.

CAPITAL LETTERS, FINGER SPACES AND FULL STOPS MUST BE USED.
Remember to use a regular HB pencil and not a colouring pencil.

Maths:

Today you are problem solving using all of your knowledge of addition and subtraction. If you need to recap something, please use previous videos to help. There are some additional videos here to help recap some topics if you need them.

Please complete the worksheet attached.

Science:

We have been learning all about plants. Because you are at home this week, explore what plants there are in your environment! Go and investigate inside and outside your home. What plants can you spot and find? What are their names? Can you spot any similarities or differences? Can you name and find the different parts of any plants that you find? If you don't find any plants inside or outside your home try looking further afield! Take some photographs of any plants that you find.

Prayer/Reflection Time:

We have been thinking about harvest festival.

In the United States of America, on the fourth Thursday of November each year, families gather to celebrate Thanksgiving. Thanksgiving is a public holiday that remembers the English settlers having their first harvest living in America. In September 1620 just over one hundred passengers, known as the pilgrims, set sail, leaving Plymouth, England, on a ship called the Mayflower to look for a new life. After 3 months they finally arrived at the North Eastern shores of what we now call the USA, it wasn't the USA back then. They arrived

in winter and due to the bad weather most of them continued to live on the boat until the spring. They started building a village called Plymouth and began planting seeds to be harvested later that year. In November 1621, the pilgrims harvested their first corn and they organised a feast in celebration inviting a group of Native Americans that had helped them. This was America's

first Thanksgiving. In 1863, the president Abraham Lincoln made Thanksgiving a national holiday. Nowadays, on the fourth Thursday of November each year, American families gather together and take the time to remember this historic event.

Time to reflect

How happy do you think the English settlers felt when they harvested their first crops?

How would you have celebrated the event?

Reflection (Prayer)

(Dear God)

We are especially thankful at this time of year for a good harvest of food. We think of those who don't have enough food in our own country and for those around the world. Let us at this harvest time, demonstrate how thankful we are by being generous with what we have. (Amen)

Maths:

Use MathsBot to help you!

Problem Solving:

P1)

I had 15 pencils. I gave 5 away. How many have I got left now?

Problem Solving:

P5)

We bought 29 cakes. I ate 13. How many cakes have I got left?

Problem Solving:

P2)

I had 12 toy bats. Daddy gave me 3 more. How many toy bats have I got now?

Problem Solving:

P6)

I got 23 presents from friends. My family gave me 12 more. How many presents have I got now?

Problem Solving:

P3)

I had 27 books. Mummy took away 7. How many books have I got left now?

Problem Solving:

P4)

I had 39 ducks. Daddy gave me 7 more. How many ducks have I got now?
