Living things and their habitats

Today, I would like you to research and find out about a desert habitat. To do this, think about the following questions:

What is a desert habitat like?

What is the weather like?

Where in the world would you find a desert habitat?

Can you identify four animals that live in a desert habitat?

Please write some sentences to answer the questions and complete any drawings that may help you to answer the questions.

Please send in your work using Dojo. Thank you 😊
