Living things and their habitats

Today, I would like you to research and find out about a woodland habitat. To do this, think about the following questions:

What is a woodland habitat like?

Do you know of a woodland habitat close to where you live?

Can you identify four animals that live in a woodland habitat?

Please write some sentences to answer the questions and complete any drawings that may help you to answer the questions.

Please send in your work using Dojo. Thank you 😊
