

**EYFS**

**Science home learning 18<sup>th</sup> January 2021**

To start I would like you to take a look at the weather outside. Please go outside and think about the following questions:

Is it cold?

Is the sun shining?

What do you think people should wear today if they need to go out?

Watch the weather forecast by clicking on the following link:

<https://www.bbc.co.uk/weather/2640349>

Scroll down and click on the BBC Look North weather forecast for today.

Now, can you be the weather forecaster? Think about what the weather was like when you went outside and when you watched the weather forecast for today.

You can either send me a video of your weather forecast or you can use paper to send me drawings of your weather forecast. It is up to you!
