

EYFS

Science home learning 22nd February 2021

Create a weather picture

It is entirely up to you how you create your weather picture. Use whatever you have at home. Please think about the following:

How has the weather changed over the past week?

Please discuss similarities and differences.

Did it rain?

Was it freezing?

Did we get any more snow?

Did the sun shine?

How many different types of weather did we have?

Please take a photograph of your weather picture and send it in using Dojo.

Thank you ☺
