Alliteration

Alliteration is the stylistic device of using a series of words begin with the same consonant sound.

What Is It?

Characteristically, alliteration is the use of a series of words beginning with the same consonant or syllabic sound. While alliteration doesn't usually give much added depth to writing, it can add humour and expression.

Busy buzzing, the bee behaved beautifully.

Why Use It?

As mentioned, it might not add to the depth of meaning of your writing, but it will make it sound better. Alliteration can make your words more engaging – and entertaining. And, when your writing engages your audience they are more likely to pay attention and remember what you say.

Larry's leaping lizard.

Try playing around with alliterative words and phrases to make your words come alive.

How to Identify Alliteration

The best way to spot alliteration being used is to read out the sentence, listening for the words with the identical consonant sounds. As you read these sentences, identify the alliterative letter or sound.

Adding Amazing Alliteration

Remember:

Not every word has to be alliterative. You can use prepositions such as 'the' and 'of' and pronouns such as 'his' and 'her' and still maintain the alliterative effect.

Alliteration does not need to be an entire sentence.

Any two-word phrase can be alliterative.

Even some single words can be alliterative if they have multiple syllables which begin with the same consonant sound.
